COUNTY OF ROANOKE, VIRGINIA

Notes to Required Supplementary Information For the Year Ended June 30, 2005 (Unaudited)

Budgetary Accounting and Control

- *Annual Budget Adoption* - Annual budgets are legally adopted for the General, Debt Service, and School Board Component Unit Operating Funds. The Debt Service Fund is budgeted for principal and interest payments to be paid. Capital Project Funds are budgeted on a project basis. The County follows these procedures in establishing the budgetary data reflected in the financial statements. The Code of Virginia requires adoption of a balanced budget by June 30 of each year. The County Board of Supervisors formally adopted the fiscal year 2004-2005 budget appropriation on June 8, 2004.
- *Budgetary Basis of Accounting* - The General Fund budget is adopted on the modified accrual basis of accounting, a basis of accounting consistent with accounting principles generally accepted in the United States of America.
- *Budgetary Process* - At least sixty days prior to June 30, the County Administrator submits to the Board of Supervisors a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them. Public hearings are conducted to obtain citizen comments. Prior to June 30, the budget is legally enacted through an ordinance passed by the County Board of Supervisors.
- *Budgetary Controls* - Legal budgetary control is maintained at the fund level. However, for management purposes, the budget is segregated into three categories: personnel, operating, and capital expenditures by department. The Department Head may use discretion to transfer from one category to another as long as the departmental total does not change. County debt is segregated into a separate fund for budgetary purposes. The County Administrator may authorize or delegate the authorization of a transfer of any unencumbered balance or portion thereof from one department to another within a fund. All other transfers require approval of the Board of Supervisors. Formal budgetary integration into the financial accounting system is employed as a management control device during the year for the governmental type funds. Management control is maintained at the category level (i.e. personnel, operating, capital) and supplemental appropriations during the year-end cannot exceed the undesignated fund balance. Actual expenditures and operating transfers out may not legally exceed budget appropriations at the fund level. Unspent appropriations lapse at year-end for legally adopted budgets. The Board of Supervisors must approve any budget amendments increasing or decreasing appropriations. Major amendments are budget amendments that exceed the lesser of one percent of the original budget or the sum of \$500,000. These major amendments must go through the same public hearing requirements as the original budget.
